SUMMARY

Accomplished website developer with a strong track record in developing visually appealing and high-performing websites. Proficient in front-end technologies such as HTML, CSS, JavaScript. Demonstrated ability to meet client requirements, collaborate with teams, and generate revenue. Undergoing a fellowship in full-stack development focussing on React, Node.js, and system design.

EXPERIENCE

Founder, Website Developer

Jan '19 — Jan '23

Amber Horizons

Pune, India

- Established a small Web Design and Development company and worked with over 25 clients from India and all across the globe.
- Designed and developed websites with strong focus on visual appeal, speed and customer success. Worked on Wordpress with tools like Elementor and Woocommerce.
- Worked with various front-end technologies like HTML, CSS and Javascript, while also adding back-end code with PHP.
- Demonstrated ability to deliver end-to-end projects, meet client requirements and help generate revenue for customers.
- Inculcated good leadership and collaborative skills while working with contractors and freelancers.

UI/UX Developer

Oct '17 — May '19

Persistent Systems

Pune, India

- Developed a UI feature of configuring chart properties of a data visualization application as a member of a 2-person team.
- Using Javascript and Chart.js library, we developed a standard, uniform User Experience that could generate more than 15 types of charts with the relevant data.
- Contributed significantly to fixing bugs of all severities in the application with clean, extensible code.

PROJECTS

Studio Booking App [Link](#)

- A website that lets users make hourly/weekly bookings based on availability of the Studio fetched from a Google Calendar. The app then fires appropriate API calls and e-mails to block the Studio's calendar once payment is successful and informs both the parties. Built with React JS and Express.
